

The Brightest Idea is Emergency Lighting with LEDs

GENERAL DESCRIPTION

A low profile and powerful LED recessed fixture for Mounting up to 4 ft from floor level. Dual function operation in either emergency or optional normal mode, powered from the Sigtex central battery system at 24VDC.

CONSTRUCTION

- Faceplate from solid machined aluminum, available with brushed finish or a variety of satin enamel paint colors.
- Steel housing with bracket mount locations and multiple knockouts for wiring connection.
- Composite outdoor rated gasket seal for wet location operations.
- UV stabilized polycarbonate or acrylic diffuser window 1/8" thick delivers wide beam output.
- Modular faceplate and lamp housing removes to allow easy access for service.

ENERGY EFFICIENT OPERATION

- Operates with Central Battery System including low voltage normal lighting operation. See CBS data sheet.
- Dual function operation for optional night or security lighting as well as emergency lighting.
- Very low power consumption compared to any fluorescent or incandescent lighting systems.
- Over 50,000 hour lamp life in normal use.

ELECTRONICS

- 10 watts total system power.
- Standard minimum operating temperature -40 °C.
- LED color temperature standard 5300K; available color temperatures from 2900K, 3200K, to 3800K.
- An advanced LED driver module is incorporated in the fixture, allowing dual operation from either a battery or normally on power source.
- Lamps are connected in parallel-series strings, as required to meet requirements of NEC and Life Safety Codes. Lighting continues even after failure of one lamp or circuit.

CODES

- Manufactured and tested to UL Standard 924 and NFPA Life Safety Code 101.

WARRANTY

- 5 year total customer satisfaction warranty. For details see product catalog technical data section.
