GENERAL DESCRIPTION
With spacing up to 55 ft in 9 ft ceilings, this recessed down light for lighting retrofit has only a 4” trim, and is our most efficient emergency luminaire. Very effective in long corridors, it is inconspicuous and will blend with general lighting fixtures without affecting the appearance of ceiling layouts.

CONSTRUCTION
• 4” Trim ring installation with standard can and Back plate.

• Three versions available:
  BB=Unit equipment with self-contained battery
  RE=Remote for connection to 24 VDC Central Battery System
  AC=Remote for connection to AC 120/277 emergency supply.

ELECTRONICS
• Lamps are connected in parallel. If one lamp fails, one or more lamps will continue in operation.

• Universal 120/277 VAC input for standard battery or AC unit, or 24 VDC input for remote configuration.

• Power supply delivers regulated current and voltage to LED lamps at optimum levels to maximize lamp life.

• Automatic battery diagnostics available for all battery models.

ENERGY EFFICIENT OPERATION
• Emergency lighting with optional dual function operation for night or security lighting.

• Very low power consumption in optional night/ security mode. The security lighting circuit is independent of emergency lighting and may be switched manually, by an exterior photocell, or other automatic means.

• Over 50,000 hour lamp life in normal use.

• IES photometric data available for all models.

CODES

WARRANTY
• 5 year total customer satisfaction warranty. For details see product catalog technical data section.
